### Other Expertise:

Responsive UI Development, Admin Dashboard Creation, CMS Integration, Face Recognition, Geolocation Tracking, Payment Flow Optimization, Cross-browser Compatibility

## Experience

---

### ThinkB Creative Agency, Bangalore

**Full Stack Developer | Jun 2024 – Present**

- Built and deployed 15+ dynamic websites and admin portals using Django and React
- Developed complete hospital management systems with department, doctor, appointment, and blog modules
- Integrated video consultations, appointment notifications, payment gateways (HDFC), and job application modules
- Created APIs for mobile app integration and admin dashboards

### Funtastic Sports Pvt Ltd, Kochi

**JavaScript Developer | React & React Native | Jun 2023 – Jun 2024**

- Developed mobile applications using React Native and maintained React web apps
- Collaborated on UI/UX improvements and ensured optimized performance across devices

### Mentegoz Technologies, Calicut

**Full Stack Developer | Aug 2022 – May 2023**

- Contributed to 10+ live client projects using Django and React
- Built REST APIs, integrated Razorpay, and handled backend logic for CRM and ERP modules

### Techolas Technologies, Internship

**Full Stack Developer Intern | Jan 2022 – Aug 2022**

- Gained hands-on experience with web development lifecycle, version control, and deployment
- Worked on internal tools and small-scale client sites

## Key Projects

---

### Hospital Management System (Web + Mobile API Integration)

**Tech Stack: Django, React, PostgreSQL, HDFC Payment Gateway**

**Live URL: <https://vshhospital.com>**

- Developed a dynamic hospital website with full admin control over departments, doctors, appointments, blogs, galleries, and banners
- Built secure APIs for mobile app integration, enabling real-time appointment booking and doctor profile syncing
- Features included:
  - Role-based admin panel with department/doctor management
  - Online and offline appointment booking with time slots

- Health checkup packages, payment tracking (HDFC integration), and filterable transaction logs
- Blog CMS with commenting system and moderation
- Video consultation with Jitsi integration
- HR portal for job postings and resume management
- Automated notifications for bookings, messages, and payments

---

### **Project Management System (Multi-role with Attendance & Task Tracking)**

**Tech Stack: Django, React, Face Recognition API, Google Maps API**

- **Designed for 3 roles: Admin, Manager, and Staff, with separate dashboards and access controls**
- **Key features:**
  - **Task assignment, approval flow, and progress tracking**
  - **Daily attendance with face recognition and geolocation tagging**
  - **Leave management and profile updates**
  - **Real-time task notifications and work-hour calculation based on location check-ins**

---

### **E-Commerce Website for Saudi Brand (Full-Stack Implementation)**

**Tech Stack: Django, React, Razorpay, PostgreSQL**

**Live URL: <https://growque.com>**

- Developed a complete e-commerce platform with admin and customer modules
- Features included:
  - Product, category, cart, Wishlist, and address management
  - Secure checkout flow with Razorpay integration
  - Voucher system with configurable rules (expiry date, one-time use, usage limits)
  - Admin view of customer carts, Wishlists, and order history
  - CMS for blogs, messages, and dynamic banner updates

I hereby declare that the information provided above is true to the best of my knowledge and belief.
